

NNPS NEW MEMBER TEAM TRAINING

April 8, 2009 8:00 – 2:30 Pee Dee Education Center

Would you like to learn how to involve more families in your school's activities and strengthen your program of family and community involvement?

Would you like for the teachers and parents in your school to learn how to link family involvement activities with school goals focused on student success?

If you answered yes to these questions, the Center of Excellence invites your school team to attend the NNPS One-Day New Member Team Training Workshop on April 8, 2009. The training will be held from 8:00-2:30 pm at the Pee Dee Education Center.

This workshop is designed to prepare your school's action team to build a strong program of school, family, and community partnerships using the National Network of Partnership Schools (NNPS) research-based approach. During the workshop, school teams will work together to identify and evaluate present partnership activities using the six types of involvement: parenting, communicating, volunteering, learning at home, decision making, and collaborating with the community. This information will be used by each school to write a One-Year Action Plan linked to your school goals. **This plan will meet the family involvement requirements for No Child Left Behind.**

If you wish to attend the training, you will need to call (843-669-3391 x27) or email coe@fmarion.edu to let us know who will be attending from your school. (Lunch will be provided.)

If you have any questions about this information or would like to know more, please feel free to contact me. I am looking forward to working with your school's partnership team!
