

# *VIRTUAL*

## *2020 Research Consortium*

May 6 ~ 2:00 pm – 3:30 pm

Live Stream Zoom Webinar

**\*Must be registered to participate.**

---

## Keynote Speaker: Lorin W. Anderson

*Co-founder of Francis Marion University's Center of Excellence to Prepare Teachers of Children of Poverty and University of South Carolina Distinguished Professor Emeritus*

Standardized tests are commonplace in PK-12 education, yet mystery and uncertainty often surround their creation, use, and interpretation. ***What content and cognitive processes do they intend to measure? Are the content and cognitive processes used by students in responding to the tests consistent with these intentions?*** Learn about research that examined students' understanding of test items and how these perceptions shape student responses, which influence the usefulness of the tests in decision making.

---

### Agenda

Talk	2:00 – 3:00
Questions and Discussion	3:00 – 3:30

---

**Register now!    Registration is free and simple.**
